TABLET APPS

Enroll them now, don't wait! With our consumer facing tablet application, customers can join the fun immediately, right while they're checking out.

YOUR RIGHT TO CHOOSE

Some people still like carrying plastic cards. In fact 89% of our 1.4 million account holders carry rewards cards. That's why we offer a hybrid rewards options that lets the customer choose. Swipe their card, give the server their phone number or simply use your mobile app, the point is, it works for EVERYONE!

THERE'S A NEW WAY

So your customers don't want to carry plastic cards anymore – I guess 23 cards in one wallet can be a lot. And many people just don't want to give out their phone number every time they visit

Enter the next generation of loyalty technology: Points at the Table.

With our technology, customers receive their guest check, open up your new app, and can simply scan their receipt to instantly earn points for their visit.

Wait, they have a reward to redeem? No problem. There's a button for that too. Press it before scanning their check and instantly their reward is redeemed, the check is adjusted in real-time on the POS, and they're on their way. Sound like something from the future? It is, welcome to Points at the Table!
